Final Word:

This booklet is based on the truth of God's word in His account of the beginning of this world (Creation).

Many doubting people in the world have invented other ideas on how the world began and want us to support these theories.

Some write that human life evolved from monkeys who before that evolved from out of the oceans (Evolution). This story begins with a big explosion of nothing (Big Bang Theory).

It is important as God's children that we always believe only God the Almighty is wise and powerful enough to have created all things (Psalm 148)
